

PA School Data Project – Codebook July 2018

Overview

In the Pennsylvania School Data dataset, RFA brings together comprehensive Pennsylvania education data from various public sources into one spot. When possible, we have compiled the data longitudinally as far back as the 2006-07 school year and we provide the data at the school, Local Education Agency (LEA), and state level.

This Codebook describes each of the variables contained in the dataset, including the original source, years of availability, and rates of missing data. The following pages are organized by data subset (i.e., Finance, People, Outcomes, School Characteristics/Opportunities), then by data source (e.g., PDE Keystone Exam Results), and then by variable. Variables are presented in the order that they are reported in the datasets. Similar variables from different sources may not perfectly align.

Each data source, when relevant, includes notes from the original publisher or RFA about characteristics of the data and any considerations for the use of the data. In addition, for each variable, explanations are provided for any decisions made by RFA related to data construction. Data sources include the Pennsylvania Department of Education (PDE), National Center for Education Statistics Common Core of Data (CCD), and Office of Civil Rights (OCR) Civil Rights Data Collection (CRDC).

Data Anomalies

Missing Values:

The data includes missing values with rates of missing data varying across sources and variables. There are four defined missing value types in this dataset:

Missing Type	Missing Value (in Stata dataset)	Descriptions for Missing Values
Missing	.a	Data was expected but not provided
Not Applicable	.b	Data was not expected because the variable was not applicable for the school or LEA (e.g., Keystone exam results are not expected for schools and LEAs that did not serve 11th grade students.)
Suppressed	.c	Value hidden to ensure individuals in the data are not identifiable. The criteria for suppression of data varies across data sources and years. (e.g., Percent of students who scored proficient on Keystone exams would be suppressed if the number of students scored was less than 11.)
Not Reported in Year	.d	The data source or variable was not reported. This may be because data reporting for the source or individual variables did not occur in that year or the data file did not include school- and LEA-level identifiers.

Missing types reported in this table were declared either by the original publisher, or by RFA.

Data Construction

This dataset compiles and presents data as it was reported by the original publisher. There are some cases in which variables were constructed to ensure consistency among the measures across years. For example, tuition schedule expenditures data include more detailed charter tuition variables in later years. These variables were combined to generate the summary variables that are reported in earlier years.

This data includes units at three levels: school, LEA, and state. Data that was reported at the LEA-level could not be disaggregated to the school-level (e.g., Revenues and expenditures). When the LEA- or state-level data was not reported, the values were calculated using the school-level data when possible.

Data Verification Codebook – Master Operating Entity List ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE), Division of Data Quality

- Public school enrollment data used to generate grades served variables retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Enrollment%20Reports%20and%20Projections.aspx>.
- Master list of open schools by year was provided via email by PDE Division of Data Quality.

Notes

- Grade served variables were generated using enrollment data. A school was reported as serving a grade if the school's enrollment for that grade was reported as greater than zero.
- Nation Center for Education Statistics (NCES) school and Local Education Agency ids are missing for the 2016-2017 year as those ids were retrieved from Common Core of Data, where 2015-2016 is the latest year that data is available.
- Schools that operate as their own Local Education Agency (LEA) do not have a district-level observation. This is because a district-level observation for these schools would be complete duplicates of the corresponding school-level observation.

Data Verification Codebook – Expenditures Summary ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Professional-and-Support-Personnel.aspx>

Notes

- Expenditures data are not reported at the school level.
- The variable holding actual instructional expense (exp_aie) was not included in the expenditure summary files for the 2009-10 and 2013-14 school years. This variable was retrieved from the “Actual Instruction Expense” file for those years, which was found here: <http://www.education.pa.gov/Teachers%20%20Administrators/School%20Finances/Finances/AFR%20Data%20Summary/Pages/AFR-Data-Detailed-.aspx#.VaageGXD-UI> . However, this supplementary file only includes school districts and does not include charter schools, career and technical schools, or state juvenile correctional institutions. Therefore, data for actual instructional expense is missing for those LEA types in those years.
- Actual instructional expense is not reported for 2016-17.
- Non-public school program expenditures (exp_1500) were not reported for years prior to the 2008-09 school year.
- Expenditures data is missing for 134 records across all years. Expenditures data does not include state juvenile correctional institutions or state-owned schools, which account for about 66% of these missing records.
- A glossary of expenditures terms can be found here: <http://www.education.pa.gov/Documents/Teachers-Administrators/School%20Finances/Finances/Summary%20of%20AFR%20Data/Glossary%20for%20Expenditures.pdf>
- For more detail on the expenditure items, see the Chart of Accounts for PA Local Educational Agencies here: <http://www.education.pa.gov/Documents/Teachers-Administrators/School%20Finances/Comptrollers%20Office/Chart%20of%20Accounts.pdf>

Data Verification Codebook – Expenditures per Average Daily Membership ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Teachers%20-%20Administrators/School%20Finances/Finances/AFR%20Data%20Summary/Pages/AFR-Data-Summary-Level.aspx#.VZwCqmXD-Ul>

Notes

- Expenditures data are not reported at the school level.
- Data for expenditures per average daily membership was only reported for school districts. Data was not reported for career and technical schools, charter schools, state juvenile justice institutions, or state-owned schools.
- Data for actual instruction expense per weighted average daily membership is not reported for the 2013-14 or 2016-17 school years. (NOTE: We have WADM and exp_aie for 2013-14, so this could be calculated after merging with expenditures summary data)
- Definitions:
 - Average daily membership (ADM)** is the term used for all resident pupils of the school district for whom the school district is financially responsible. It is calculated by dividing the aggregate days membership for all children on active rolls by the number of days the school district is in session.
 - Weighted average daily membership (WADM)** is the term used for the assignment of weight by grade level to ADM. The current weighting is half-time kindergarten at 0.5, full-time kindergarten and elementary (grades 1-6) at 1.0, and secondary (grades 7-12) at 1.36.
- For more detail on the expenditure items, see the Chart of Accounts for PA Local Educational Agencies here: <http://www.education.pa.gov/Documents/Teachers-Administrators/School%20Finances/Comptrollers%20Office/Chart%20of%20Accounts.pdf>

Data Verification Codebook – Expenditures Tuition Schedule ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Teachers%20-%20Administrators/School%20Finances/Finances/AFR%20Data%20Summary/Pages/AFR-Data-Detailed.aspx#tab-1>

Notes

- Expenditures data are not reported at the school level.
- Data for tuition expenditures was only reported for school districts. Tuition expenditures are not relevant to non-school district LEAs.
- Variables holding special and non-special tuition expenditures to charter schools by type of charter school (i.e., brick and mortar, and cyber) are only reported for the 2015-16 and 2016-17 school years.
- Variables holding tuition to charter schools by type of tuition (i.e., non-special, and special) are not reported for years prior to 2009-10.
- Total tuition to charter schools by tuition type was calculated using the more detailed variables for the 2015-16 and 2016-17 school years.
- Total tuition to charter schools was calculated using the more detailed variables for years after 2008-09.
- Unassigned tuition expenditures (exp_tuition_unassigned) was only reported for the 2006-07 school year.
- For more detail on the expenditure items, see the Chart of Accounts for PA Local Educational Agencies here: <http://www.education.pa.gov/Documents/Teachers-Administrators/School%20Finances/Comptrollers%20Office/Chart%20of%20Accounts.pdf>

Data Verification Codebook – Revenues Detail Local ([Return to Contents](#))

Outstanding Issues or Questions

- Retrieved from <http://www.education.pa.gov/Teachers%20-%20Administrators/School%20Finances/Finances/AFR%20Data%20Summary/Pages/AFR-Data-Detailed-.aspx>

Notes

- Revenues data are not reported at the school level.
- Revenues detail data is missing for 135 records across all years. Revenues data does not include state juvenile correctional institutions or state-owned schools, which account for about 66% of these missing records.
- Of the 64 variables reported in the revenues detail local files, 12 are not available for all years from 2006-07 through 2016-17. See the “Years Available” column below for availability by variable.
- Items rev_6111 through rev_6400 only apply to school districts. Therefore, non-school district LEAs are not included in the expected sample for those variables.
- For more detail on the revenue items, see the Chart of Accounts for PA Local Educational Agencies here: <http://www.education.pa.gov/Documents/Teachers-Administrators/School%20Finances/Comptrollers%20Office/Chart%20of%20Accounts.pdf>

Data Verification Codebook – Enrollment (CCD for all but most recent year) ([Return to Contents](#))

Source: National Center for Education Statistics (NCES) Common Core of Data (CCD)

- Retrieved from <https://nces.ed.gov/ccd/elsi/tableGenerator.aspx> or Universe files from <https://nces.ed.gov/ccd/ccddata.asp>
- Most recent year of data came from PDE: <http://www.education.pa.gov/Data-and-Statistics/Pages/Enrollment%20Reports%20and%20Projections.aspx>

Notes

- This data comes from NCES's Public Elementary/Secondary School Universe Survey", administered annually. Data is not yet available for the 2016-2017 school year.
- The Pennsylvania Department of Education does have Enrollment data for the 2016-2017 school year. The PDE data does not have counts of students by grade, race, and gender, but other variables have been provided.

Data Verification Codebook – Low Income Enrollment ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Loan-Cancellation,-Low-Income.aspx>

Notes

- Data is only available at the school-level for years 2006-07 and 2007-08 and cannot be aggregated to the LEA- or state-level.
- This data contains low income enrollments for all publicly funded schools in Pennsylvania as reported by school districts, area vocational-technical schools, and charter schools. Local education agencies were asked to report those economically disadvantaged students who were enrolled and attending as of October 1.

Data Verification Codebook – Professional Staff ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Professional-and-Support-Personnel.aspx>

Notes

- Data is reported at the LEA- and state-level.
- Professional staff summary files were not reported for school years prior to 2012-13.
- Variables holding the average level of education of professional staff have continuous values between 1 and 6. Levels of education are coded as follows:
 - 1 – Less than high school graduate
 - 2 – High school graduate
 - 3 – Some college, less than bachelor's degree
 - 4 – Bachelor's degree
 - 5 – Master's degree
 - 6 – Doctorate's degree
- Average Salaries, Years of Service and Education Level are calculated for full-time staff only, categories are based on primary assignment.
- Salaries less than \$18,500 reported for full-time staff are not considered when calculating averages.
- Salaries may reflect expired collective bargaining agreements.
- For category (administrative, classroom teacher, coordinate/support, and other) totals and averages, a person is counted once within each category.

PA Data – Codebook – Complete

- Individuals holding assignments in more than one category will only be counted once in the overall (PP-Professional Personnel) totals and averages for an LEA.
- Subcontracted staff are not counted, nor is their data used in calculating averages.
- School Security staff are not counted, nor is their data used in calculating averages.
- Local Education Agency (LEA) Level: An individual is only counted once per LEA, regardless of the number of schools or buildings where she or he is employed.
- State Level: An individual is only counted once per state, regardless of the number of LEAs or counties where she or he is employed.

Data Verification Codebook – FTE Teaching Staff & Teacher/Pupil Ratios ([Return to Contents](#))

Source: National Center for Education Statistics (NCES) Common Core of Data (CCD)

- Retrieved from <https://nces.ed.gov/ccd/elsi/tableGenerator.aspx>

Notes

- This data comes from National Center for Education Statistics's "Public Elementary/Secondary School Universe Survey", administered annually.
- Data is not yet available for the 2016-2017 school year
- The number of teachers at various grade levels (Prekindergarten, Kindergarten, Elementary, Secondary, and Ungraded) is only provided at the district- and state-levels, not the school-level. School-level records are listed as "not applicable" for those variables.

Data Verification Codebook ([Return to Contents](#))

Data Verification Memo – SPP Academic Performance ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.paschoolperformance.org/Downloads>

Notes

- Data was originally reported at the school-level. District- and state-level observations were generated by aggregating school-level data for variables reporting counts. Variables holding percentages could not be generated at the district- and state-level as the numerators and denominators utilized to calculate percentages were not reported. Final academic scores could also not be calculated for district- and state-level observations, as this is a school-level measure calculated by the State.
- Final academic scores can exceed the 100-point scale as entities can receive up to 7 extra credit points for advanced achievement. See the Pennsylvania School Performance Profile Frequently Asked Questions for more information:
<http://paschoolperformance.org/FAQ>
- Data was first reported for the 2012-2013 school year.
- 77.5% of schools and 23.3% of LEAs are missing data for the 2014-2015 school year.

Data Verification Codebook – PSSA Exam Results ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/data-and-statistics/PSSA/Pages/default.aspx>

Notes

- PSSA exam test subjects changed in the 2014-2015 school year. Prior to that year, students were assessed in Reading and Writing as two separate subjects. Starting the 2014-2015 school year, students were assessed in English and Language Arts (ELA) with a single test, thus producing a single resulting score.
- Several times over the course of this 11-year window, PDE changed the subgroups of students over which they provided PSSA performance results. (e.g. race and ethnicity groups, historically underperforming students, English Language Learners) If a subgroup was not provided in a given year, it is marked as such and not included in the expected sample.
- Variables that report the percentage of students who scored at each level (e.g., advance, proficient, basic, below basic) have values that are suppressed (.c) if the number of students who were scored is less than 10 (prior to 2013) or less than 11 (2012-2013 onwards).
- Data was reported at the school- and state-levels. The LEA-level observations were generated by aggregating school-level records.

Data Verification Codebook – Keystone Exam Results ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Keystone-Exams-Results.aspx>

Notes

- Proficiency summary data do not include students who were enrolled in the schools after October 1, home schooled, excluded from school aggregation, ELL students who were enrolled for less than one year in US school, or students who did not attempt. Proficiency percentages may not add up to 100 due to rounding.
- Variables that report the percentage of students who scored at each level (e.g., advance, proficient, basic, below basic) have values that are suppressed (.c) if the number of students who were tested is less than 11.
- District-level observations were generated by aggregating school-level data.
- 2012-2013 was the first academic year for which Keystone exam results were publicly reported.

Data Verification Codebook – AP Exam Participation & Passing Rates ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC AP Exam participation and passing were aggregated using the school-level data to generate LEA- and state-level totals.
- In the 2011-12 year, the variables were reported at three levels: none, some, all. The variables holding “some”, and “all” were combined to align with the variables holding “one or more” in the subsequent years.
- The data reported included suppressed data, indicated by the code (≤ 2) in 2011-12 and (-2) in the following years. Suppressed values were not included in the generated LEA- and State-level records.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual published by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – SAT & ACT Exam Participation ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC SAT & ACT exam participation and passing were aggregated using the school-level data to generate LEA- and state-level totals.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual published by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – Algebra I Passing Rates ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC Algebra I participation and passing were aggregated using the school-level data to generate LEA- and state-level totals.
- In the 2011-12 year, the variables were reported at three levels: grade 7-8, grade 9-12 and grade 11-12. The variables were combined to generate variables holding the total number of students who were enrolled in algebra I and the total number of students who passed algebra I by race and gender.
- The data reported included suppressed data, indicated by the code (≤ 2) in 2011-12 and (-2) in the following years. Suppressed values were not included in the aggregated LEA- and State-level records.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual published by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – Dropout Rates ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Dropouts.aspx>

Notes

- The total number of dropouts is counted for the 12-month period from October 1 to September 30, but the total secondary enrollment was obtained on October 1.
- Definitions:
 - **DROPOUT:** A student who, for any reason other than death, leaves school before graduation without transferring to another school/institution.
 - **DROPOUT RATE:** An annual or "event" rate that measures the proportion of students enrolled who drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.
- Data is not included for the 2006-07 school year. That data file is in PDF format and does not include Administrative Unit Numbers (AUN) nor school numbers. The most recent data available is from the 2015-16 year.

dropout_rate	Dropout Rate (Total Dropouts/Dropout Eligible Enrollment)	2007-08 - 2015-16	√	√	√

Data Verification Codebook – 4 Year Cohort Graduation Rate ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Cohort-Graduation-Rate-.aspx>

Notes

- The 4-Year Cohort Graduation Rate was first measured using data from the Pennsylvania Information Management System (PIMS) for the 2010-11 school year. Data has not been reported for the 2016-2017 school year.
- Data on graduation rates by sex and race are suppressed for some schools from 2014-2015 and 2015-2016 if the number of students in the cohort was reported as less than 11.
- Blank values for variables holding graduation rates by sex and race declared as acceptable missing. It is assumed that the school did not serve students in grade 12 that belong to those sex and race groups.
- Total number of students in the cohort and the total number of grads was not reported at the school-level for the 2010-2011 school year.
- Definitions from data documentation:
 - Cohort:** Students who together entered high school (defined by 9th Grade) for the first time during the same school year. Determined by the data field "Grade 09 Entry Date" in the Student Template of PIMS.
 - Cohort Graduation Rate:** A measurement of what percentage of a cohort have graduated within a specific time-frame. For example, the 4-Year Cohort Graduation Rate is the percentage of students who entered 9th Grade four years ago that have graduated by the end of the four years.
 - Graduates:** Students who earned and graduated with a regular high school diploma by the end of the measurement period. Does not include students who earned a GED or students who walk with their class but did not earn their diploma at that time.

Data Verification Codebook – College-Bound Graduates ([Return to Contents](#))

Source: Pennsylvania Department of Education (PDE)

- Retrieved from: <http://www.education.pa.gov/Data-and-Statistics/Pages/Graduates.aspx>

Notes

- Data is reported for the 2006-2007 school year, but the file holding the data does not include identifiers (i.e., aun and school number) and, therefore, was not included in creation of the longitudinal file.
- Data is not yet reported for the 2016-2017 school year.
- There are 349 records across all years that only reported the total number of graduates, and reported zeros for all other fields. The data is left as it is reported. However, it cannot be determined if these zeros indicate that the value of the field is missing or truly zero. The School District of Philadelphia accounts for 46% of these cases.
- Definitions:
 - High School Graduate:** An individual who has received formal recognition from school authorities, by the granting of a diploma, for completing a prescribed course of studies in a secondary-level school.
 - College Bound Graduate:** A high school graduate planning to enroll in a two- or four-year degree granting college or university or a specialized associate degree-granting institution.
 - Non-Degree Granting Postsecondary Institution:** A school licensed or approved by the state to offer a certificate, diploma or some similar type of recognition of achievement issued by the institution.

Data Verification Codebook – Suspensions & Expulsions by Race & Gender ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC suspensions and expulsions were aggregated using the school-level data to generate LEA- and state-level totals.
- Suspensions and expulsions were reported separately for students without disabilities and students with disabilities. These variables were combined to report total suspensions and expulsions by race and gender, while preserving the total number of suspensions and expulsions for students with disabilities in the variables that end in “_idea”.
- Expulsions were reported in three forms: with education services, without educational services and based on zero tolerance policies. These variables were combined to generate variables that hold the total number of expulsions by race and gender.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual published by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – Pre-K Service Offerings ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC LEA characteristics are only available at the LEA-level.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual generated by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – AP Courses and Gifted & Talented Offerings & Participation

([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC AP course and gifted and talented program offerings and participation were aggregated using the school-level data to generate district- and state-level totals.
- AP foreign language variables were only reported in years prior to 2013-2014, and were rolled into “AP other” variables to align with later years.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual generated by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook – Math and Science Course Offerings ([Return to Contents](#))

Source: U.S. Department of Education, Office of Civil Rights (OCR)

- Retrieved from: <https://ocrdata.ed.gov/>

Notes

- CRDC Math and Science Course offerings were aggregated using the school-level data to generate LEA- and state-level totals.
- In the 2015-16 year, the variable for algebra I courses were presented at two levels: high school courses and middle school courses. These two variables were combined to align with the variable holding grade 7-12 algebra I courses that is reported in the other years.
- CRDC data reports are available for the 2009-10, 2011-12, 2013-14, and 2015-16 school years. The data from 2009-10 was not included, as data was collected only from a sample of public schools and public-school districts in that year.
- For more information about the Civil Rights Data Collection and the Office of Civil Rights visit: <https://www2.ed.gov/about/offices/list/ocr/data.html>
- The complete user manual published by the Office of Civil Rights can be found here: <https://ocrdata.ed.gov/DataFileUsersManual>

Data Verification Codebook ([Return to Contents](#))

Variable Name	Variable Label	Years Available	Levels of Availability		
			School	LEA	State
